The Assistive Technology Lab (ATL) at Vishnu Institute of Technology (VIT), located in Bhimavaram, West Godavari district, Andhra Pradesh, is a collaborative effort between VIT and UMass Lowell. This initiative is a part of Sri Vishnu Educational Society (SVES) and embodies the vision of Mr. K. V. Vishnu Raju, the Chairman of SVES, who aims to harness the skills of various engineering departments within the college for the advancement of Assistive Technology.

Inspired by his visits to numerous universities in the United States, Mr. Vishnu Raju was particularly impressed by the Assistive Technology Program at the University of Massachusetts, Lowell. In line with his progressive thinking, the Assistive Technology Lab at VIT was established through a Memorandum of Understanding (MOU) between UMass Lowell and VIT. To kickstart the program, Professor Alan Rux, the founder of the Assistive Technology Program at UMass Lowell, USA, was invited by Mr. Vishnu Raju to VIT, laying the foundation for this collaboration.

Sir,

Sub: Request for Scribe to write the IV B.Tech II Semester Examinations April2019.

This is to bring to your kind notice that the student by name SATTI N P KRISHNA REDDY with Regd. No. 15PA1A0281 studying IV B.Tech II Semester in our college. As his right hand is Amputated in a surgery, he is not in a position to write the IV B.Tech II Semester regular Examinations on his own. Hence I request you to provide the facility to write the exams with scribe. So please consider the above case and do the needful.

Thanking you,

Yours faithfully,
